add your

own name to the list along with your interests and encourage faculty in your unit to do likewise. Having such a list is most useful when we need to quickly find faculty for committees and various working groups. If the work requires representation from each unit, then we go back to the assemblies for their recommendation. On the other hand, if the FSEC is asked for say 4 faculty, and 2 will be selected, then it is better to pull those faculty who have an interest/expertise in the pertinent area. The FSEC can do this relatively quickly, thus provstis

shorter turn-around time for requests. We have already used the list to suggest and/or nominate faculty to
